

NewSpring Holdings

NewSpring Holdings—a holding company rather than a fund—allows us to employ a long-term, buy-and-build approach in the lower-middle market. We help scale growth through acquisitions and proven organic methodologies, and enhance seasoned leadership teams.

NewSpring Holdings is part of NewSpring, which partners with the innovators, makers, and operators of high-performing companies in dynamic industries to catalyze new growth and seize compelling opportunities. We manage approximately \$1.8 billion across four distinct strategies covering the spectrum from growth equity and control buyouts to mezzanine debt.

ABOUT NEWSPRING HOLDINGS

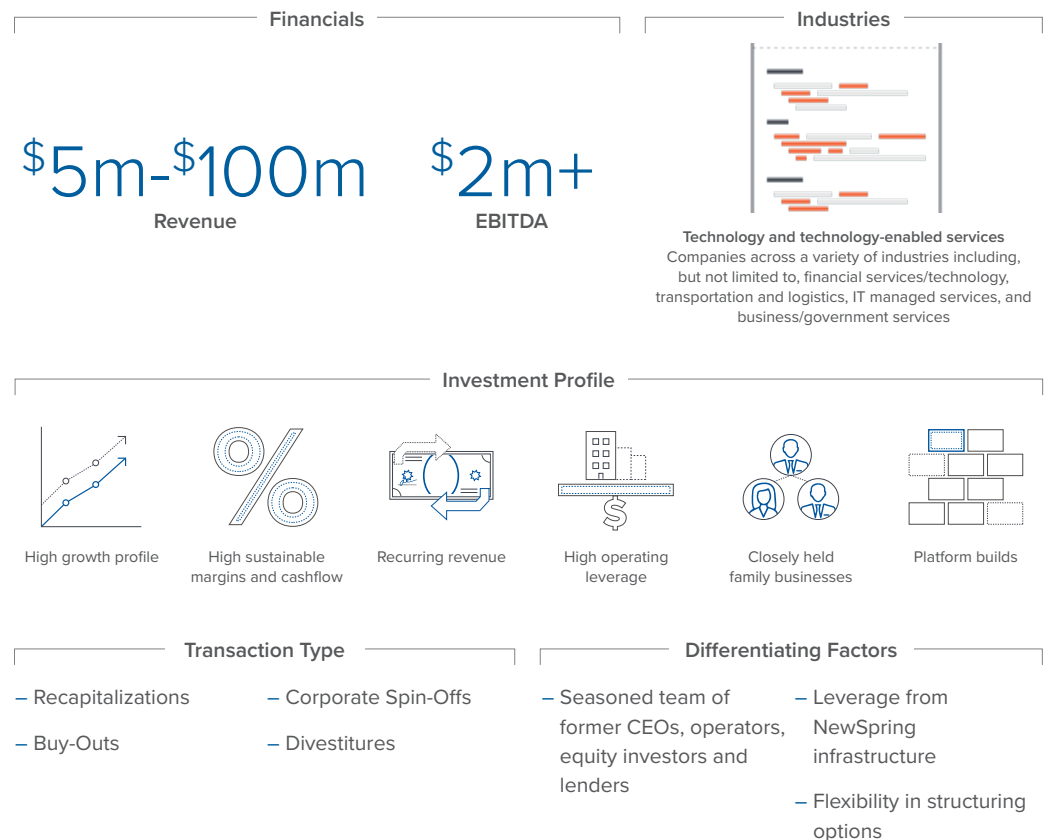

Industry Leader Teams

NewSpring Holdings builds Industry Leader teams in each sector to work directly with our portfolio companies. These Industry Leaders are executives who have years of experience in their industry and have a track record of strong operating success, M&A experience and value creation through successful exits.

Focused Markets

NewSpring Holdings starts with its Industry Leader expertise to identify industry niches that fit our investment criteria. The Industry Leader teams then proactively identify investment opportunities in the chosen sector.
